**Toll Free:** 1-800-667-3520

With **over 30 years experience** in aquaculture, Tropical's tilapia farms are among the most advanced and established in the industry.

Tropical is partnered with Tilapia farms that are geographically located through Brazil, Ecuador, Colombia and Mexico to ensure **quality** and **continuity** of supply.

Tropical Tilapia are raised in **natural habitats**, with the absence of chemicals, antibiotics, growth hormones or carbon monoxide during production. It truly **is as fresh as it looks!**

- Tropical Tilapia are **100% traceable**, from farm to fork
- Every tilapia is fed a **96% vegetable-based diet**, derived mainly from by-products of responsible fisheries
- Tilapia fillets are **very low in fat**, cholesterol, carbs, and sodium and are a good source of Vitamin B & potassium
- Incredibly low mercury levels found in tilapia fillets make them **a healthy source of protein** for everyone

Available now at Mariner Neptune & Pacific Fresh Fish!

Tropical Tilapia are proudly backed by the following certifications: 2-Star BAP, ASC, ISO, Sea Choice & SQF
